Experience

AUG 2021 - PRESENT

Tech Lead

Alloy Digital | Birmingham, AL

- Lead technical and architectural decisions for multiple consumer-facing and back-office application projects ranging from \$100k - \$2M in value.
- Architect cloud-based microservices with AWS, integrating numerous other external services.
- Directly lead a team of four full-stack developers, reviewing code and aiding in approach and problem solving.
- Mentor both direct team members and other developers across the organization through peer-to-peer education and direct advisory.

MAR 2019 - AUG 2021

Software Engineer

Alloy Digital | Birmingham, AL

- Build, deploy, and maintain high-scale (1M+ requests) marketing websites and webapps for national and international clients.
- Transition the organization from WordPress focus to a modern stack utilizing Typescript, Gatsby, and Sanity.
- Work directly with clients to understand needs, provide training, and help create project roadmaps.

JAN 2018 - MAR 2019

Technology Director

Plexamedia | Birmingham, AL

- Coordinate the development of 5-8 marketing website projects per month.

MP.

- Organize and conduct meetings with clients and team members.
- Manage a three-member production team with one remote member.
- Develop 5-8 custom, Wordpress-based marketing websites per month.

MAR 11 - JAN 18

Frontend Developer

Plexamedia | Gadsden, AL

- Developed 2-4 custom marketing websites per month.
- Produced 2-4 custom website designs per month.
- Designed and built custom Wordpress solutions to suit a variety of clients' needs.
